From Saturday, NOVEMBER 20, to Saturday, NOVEMBER 27, 1736.

The SPEECH of his Excellency

GABRIEL JOHNSTON Esq.

Governor and Commander in Chief of North Carolina.

To the General Assembly met at Edenton, Sept. 21st 1736.

Gentlemen of the Upper-house, Mr. Speaker, and Gentlemen of the House of Burgesses.

IT is not with an Intention of making any Demands for my own personal Advantage that I have now summoned you to meet in Assembly. I should look on such Views as very mean and unworthy while the publick Affairs are in such disorder, and the little Money you can at present afford to raise may be more usefully employed in making Provision for establishing Order, Peace, and Quiet, in the Province, for promoting its Trade and encouraging its Navigation.

These I assure you, Gentlemen, are the designs which I have principally at Heart, and I hope you are met together with the most sincere Resolution of enabling me to put them in execution. I shall with great Truth and Plainness lay the State of the Country before you, and if its Grievances are not redressed, and its Abuses not reformed, and Defects supplied, the Blame must lie entirely at your Doors.

I shall begin with observing the deplorable and almost total want of divine Worship throughout the Province. I believe it is impossible to instance in any Country, I am sure it is in any Colony belonging to a Christian Nation, where some effectual Provision has not been made for paying, in publick and at stated Times, that Adoration and Homage to Almighty God, so highly becoming all rational Creatures, and for instructing the People in their Duty to the supream Author of their Being, to one another, and to themselves. After observing this, no Body will be surpriz'd at the many disorders which have always prevailed among us, especially when it is considered how little care there is taken of the Education of Youth.

In all civilized Societies of Men it has always been look'd upon as Matter of the greatest Consequence to their Peace and Happiness, to polish the Minds of young Persons with some Degree of Learning, and early to instill into them the Principles of Virtue and Religion, and that the Legislature has never yet taken the least care to erect one School which deserves the name in this wide extended Country, must in the Judgment of all thinking Men, be reckoned one of our greatest Misfortunes. To what purpose, Gentlemen, is all your Toil and Labour, all your Pains, and Endeavours, for the Advantage and enriching your Families and Posterity, if within our selves you can not afford them such an Education as may qualify them to be useful to their Country, and to enjoy what you leave them with Decency.

If you turn your Eyes upon your Laws (I mean such as regard private Property) which ought to be the Guardians of your Lives and Fortunes, I am afraid you will find them in a very bad Situation: Upon the strictest Inquiry I can't find that there is one compleat Copy of them in any one Place, neither have I yet seen two Copies of them which perfectly agree, some of them seem plainly calculated to

promote fraudulent Practices, and I dare say, have prevented many honest fair dealing People from settling in the Province, most of them either appear under ridiculous Titles, are full of Contradictions, or their Language and Style is childish, ridiculous, and against the common Rules of Grammar. As the Happiness of every Private Man depends upon the Laws, I think that this is a Grievance can never too soon be redressed.

But if the Laws were never so good and well contriv'd, the want of sufficient Juries would still be a great Obstruction to the Execution of Justice. Experience shews you that there is no securing of the worst of Criminals, and bringing them to condign Punishment, without putting the Country to a vast Charge by keeping a perpetual Watch round the Prison, and even in spite of that Precaution you have lately seen a most inhuman barbarous Murderer, escape the Hands of Justice, to the great Scandal and Reproach of the Province.

And now, Gentlemen, represent all this to your selves at one View, consider a Country, where there has never yet any Provision been made for keeping up the Sense and Awe of a Duty on the Minds of People; where no Care has been taken to inspire the Youth with generous Sentiments, worthy Principles, or the least Tincture of Literature; where the Laws are dispersed up and down in different Places, on loose Papers, some of them contradictory, others unintelligible and even from the plainest and best of them the vilest and most notorious Malefactors, not only may, but actually have escaped with Impunity by reason of the Insufficiency of the publick Prisons: Then consider your selves as the Representatives of this Country, who have not only the Power and Means, but are earnestly pressed and desired to remedy these Calamities, to supply these Defects, and when you have done all this, lay your Hands upon your Hearts, and consider how you can answer it to God and your own conscience; how you can answer it to your Country or your Posterity, if you either neglect this Opportunity of pursuing such valuable Ends, or are diverted from it by the trifling Arts of designing Men.

There are other Matters which, tho' not of equal Moment with what I have been now mentioning, yet very well deserve your attention. The Penalties in the Militia Law are so slight, and so inconsiderable, that it is impossible to bring them to a Matter so frequently as necessary, and without your Assistance there is no avoiding this Inconvenience.

I recommended to the last Assembly, to use their Endeavours, for obtaining a direct Trade to Great Britain: It is in vain for you to complain of the excessive Prices of European Commodities, or of the Scarcity of Gold and Silver, while Affairs remain in the present Posture, if you do not fall on some effectual Methods, of buying your Goods at the first Market, your Neighbours will never fail to make an Advantage of your Necessities, I am the more convinced that it is very possible to do this, because, upon examination, I perceive the Navigation, even of the Northern Parts of this Province, is not near so bad as is great

great many Persons have industriously given out, and if, in Imitation of all the other Colonies in the Continent, you would give sufficient Encouragement for raising and exporting such Products, as can be raised in this Country, and bear a good Price at Home, I am satisfied you would soon see an Alteration for the better in our Trade. For the better preserving your Cattle, Corn, and other Grains, I believe you will find it highly necessary to provide a sufficient reward for the killing of Vermin, which as I am informed have done great Mischief in most Parts of the Province.

I heartily wish you would make some proper Regulations of Officers Fees. I am told there have been great Complaints, and Murmurs, on this Subject, but sure they have been very unjust, if any Person injured, had applied for Redress and been denied, there had been some Foundation for Clamour: But as this has not been the Case, I cannot see what Grounds there are for Complaints of this Nature. But that for the future the Publick may know where the Blame lies, I desire you may search this Evil to the Bottom, and who ever the guilty Person is, let him be punished with the utmost Severity. I do further assure you that as I have already sent home a List of all the Fees to the proper Officers, if you think fit to prepare a reasonable Bill for settling all the Fees in the Province, it shall not want my Assent. And now I mention Murmur, and Clamour, I can't forbear taking some notice, of the many impudent Falshoods, and notorious Untruths, which with a design to keep the Country in Confusion, have been so industriously propagated by a Party remarkable, for nothing so much as being indefatigable, in spreading the basest Calumnies and never ashamed when detected in it.

I flatter myself I have no occasion to say much on this Head, because it is pretty well known that if they had been permitted, as in former Times, to injure his Majesty's Revenue, and oppress their fellow Subjects, we should have been troubled with no Complaints from that Quarter. I should be glad if every Planter would bring this Matter home to himself, and make the Case his own. Suppose in the late Times, when no legal Titles could be got, he had set down with his Family on a vacant Tract of Land, had with great Expence and Labour, built upon and cultivated it for several Years, and after all this a Person shall come (who perhaps does not so much as know the Boundaries of it, but by the Survey, the other Person has paid for) and with an insolent Air by Virtue of a pretended Title, which perhaps a few Hours before was a mere blank piece of Paper, shall at once rob him of his Plantation and so many Years Labour; would there not be real and just Grounds, to complain of a Government which would connive at such cruel Proceedings as these. This, Gentlemen, is no bare Supposition, it is a Matter of Fact, which has actually happened more than once, or twice, and no Body can tell how often it might have happen'd if a reasonable Stop had not been put to such infamous Practices. For my own Part, I think I may say without any Vanity or Ostentation, that I have put my self to great Expence, and even risked my Health to do Justice to the People, by going on the Spot to hear their different Pretensions, and on all Occasions relieving the Poor industrious Planter from the Oppression and Frauds of their more powerful and crafty Neighbours: And as I heartily despise the poor trifling Efforts of that set of Men to my Prejudice, as well as the scandalous Methods they take to make them effectual, so if any of their Artifices should so far prevail with you as to loose this favourable Opportunity of settling the Country, I shall still have the Satisfaction of reflecting that I have performed my Duty, and that nothing is left undone on my Part.

But I can't persuade myself that it will be in the Power of such Men as they, any longer to divert you from serving your Country in such material Points as those I have recommended to you and as I have been obliged by my Instructions rigorously to maintain the Rights, and just Revenue of the Crown, I shall be glad of all Occasions to shew a tender regard for the Priviledges, Happiness, and Liberties of the People, not being apprehensive that they are in the least inconsistent with one another.

B O S T O N, Oct. 25.

We hear from New-York of the 18th Instant, that the Wednesday before arrived there the Brigantine Endeavour, Capt. W. M. Commander, who brought over Her Ma-

jesty's Confirmation of the Honourable GEORGE CLARKE, Esq; being President and Commander in Chief of the Province of New-York: Also that he had received an Additional Instruction from Her Majesty for Praying for the Princess of Wales with the rest of the Royal Family; who thereupon issued out a Proclamation, Commanding Obedience to his Majesty's Order in Council on the 29th of April last to that Effect. On the 14th Inst. the Assembly met, to whom the Honourable Mr. President CLARKE made a Speech, urging Matters of the greatest Moment and Interest for the Colony (which we have not Room to Insert) concluding thus, viz. "These Things that I have Recommended to you being for His Majesty's Honour and Service, for the Encouragement and Advancement of Trade and the General Good of the Country, I can safely and will cheerfully concur with you in them, as I shall in all others of the like Tendency: They deserve your utmost Attention, and I hope you will give them Dispatch. I make no doubt but that you are come with Minds dispos'd to consult His Majesty's Honour, and the true Interest and Quiet of the Province: Let therefore your Debates be guided by your Moderation; make Things of a private and interior Nature give way to those of a Publick, and your Electors will thank you, Posterity bleis you, and future Assemblies make your Actions a Rule for theirs".

CHARLES-TOWN,

We hear that about the middle of last Month, a Man living at Point's Creek, and having been at *Santee*, found at his return his House burnt down, his Wife, another Woman, 3 Children and a Negro murder'd and burnt, some of their Clothes all bloody were found a little way off in the Woods; it is supposed this cruel Fact was committed by the Indians, but no Discovery has yet been made, notwithstanding all possible Inquiry.

On Saturday last the Negro Fellow that had robbed Mr. Streeter on the Road, as mentioned, was executed.

A Gentleman in London, of a very credible Character, writes to his Friend here in a Letter dated August 24. the following Paragraph.

We have it repeated in the publick News Papers, that Mr. Craven is appointed to go your Governor.

Monday next is the Day appointed for the new Election of the Members of the General Assembly yet wanting, when we hear Mr. John Darts will be unanimously chosen for this Town.

In the Commons House of Assembly, the 11th November, 1736.
Whereas former Assemblies have frequently
 given Notice to the Creditors of the Public, to bring in
 their Accounts by a certain Day, to the End that Provision
 might be made for the Discharge thereof, notwithstanding
 which, by the Neglect of such Creditors to make their
 Application at the Time prefixed, the Business of the
 Assembly hath been constantly delayed, and by that Means
 the Session hath been spun out to a great Length, These
 are therefore to give Notice to the Creditors of the Public,
 that unless they bring in their respective Accounts, with
 proper Vouchers for the same, to the Clerk of the Commons
 House of Assembly, by the first of January next, no Pro-
 vision shall be made for them in the Estimate for the cur-
 rent Year.
